SUMMARY

Full-stack developer with production experience across the MERN stack, Shopify apps and WooCommerce. Contributed to Shopify apps serving 36,000+ merchants at Helixo, and now build and run **JCClub**, a live WooCommerce store, writing the custom plugins behind its shipping, payments, GST invoicing and customer login. Comfortable owning a feature end to end: building it, deploying it and fixing what breaks in production.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), PHP, HTML5, CSS3
Frontend: React.js, Next.js, Remix, Svelte, Redux, Zustand, Tailwind CSS, Material UI
Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT authentication
Databases: MongoDB, MySQL
E-commerce: Shopify app development, WordPress & WooCommerce plugin development, Razorpay, PayU
DevOps & Tools: Docker, AWS EC2, Nginx, Cloudflare, DigitalOcean, Vercel, Render, GitHub Actions, Git

EXPERIENCE

Founder & Full-Stack Developer, JCClub
2025 – Present

jcclub.in · Kerala, India

- Build and run a WooCommerce store for football jerseys; wrote 20+ custom WordPress/WooCommerce plugins that run day-to-day operations.
- Shipping automation: courier API integration for label (AWB) generation and rate comparison, tracking sync every 6 hours, multiple shipments per order, return/exception detection and a stuck-pickup monitor.
- Payments: built a 20% advance + cash-on-delivery partial-payment system, fixed a compounding calculation bug in it, and patched security issues in a third-party payment integration.
- GST invoicing plugin with PIN-code-to-state lookup via the India Post API, plus a circuit breaker for hosting timeouts. Migrated the plugin stack to WooCommerce HPOS order storage.
- OTP login that auto-creates accounts for guest buyers, fuzzy product search, restock alerts, and a full performance audit (cache rules, CDN, plugin clean-up).

Freelance Web Developer
Mar 2024 – Present

Remote

- Design and build websites for local businesses, including Everwood Interiors (interior design studio) and a WordPress site for Nexi Paints (Echo Coatings).
- Handle the full cycle: requirements, design, development, deployment and client communication.

Junior Software Engineer, Helixo Innovations Pvt Ltd
Oct 2024 – Feb 2025

Kochi, India

- Developed and optimised features for top-ranked Shopify apps (UFE, Bucks and Geolocation) serving 36,000+ active merchants.
- Built across Super Admin, Admin and storefront Widget layers using MERN, Next.js, Remix, Svelte, CRXJS and WordPress.
- Deployed and maintained production apps with Docker on DigitalOcean.
- Worked in a large production codebase with code reviews and agile sprints.

MERN Stack Developer Intern, Selfstack Hub LLP
Dec 2023 – Aug 2024

Calicut, India

- Built 20+ full-stack and frontend projects with MongoDB, Express.js, React.js and Node.js.
- Integrated a shipping aggregator API into a production e-commerce platform.
- Built internal tools including a QR code generator, a social media post scheduler and a user management system.

PROJECTS

chatWAER: Real-Time Chat App Live · GitHub

React, Node.js, Express, MongoDB, Socket.IO, Zustand

- One-to-one messaging with live online presence; WebSocket connections are authenticated with the same httpOnly JWT cookie as the REST API.
- Password reset with hashed single-use tokens, rate-limited auth routes and one-click demo accounts; deployed on Render with CI on GitHub Actions.

ClearCut Studio: Product Photo Editor Live · GitHub

JavaScript, Canvas API, WebAssembly, IndexedDB

- Browser-only editor: on-device AI background removal, logo blur and clone tools, uniform canvas sizing, watermarks, and batch export to WebP/JPEG/PNG or ZIP. No backend; images never leave the device.

TradeLens: Trade Journal & P&L Analytics GitHub

Next.js, MongoDB, NextAuth, Claude AI

- Trade tracking and profit/loss dashboards for stock traders, with AI-generated explanations of why a stock moved.

E-commerce Store (Node.js) GitHub

Node.js, Express, MongoDB, Handlebars, Razorpay, Cloudinary

- Storefront and admin panel with cart, coupons, orders and sales reports; JWT and OTP login.
- Razorpay payments verified server-side (signature and amount); deployed on AWS EC2 behind Nginx and Cloudflare.

EDUCATION

Bachelor of Computer Applications (BCA) 2018 – 2021

University of Calicut, Kerala

LANGUAGES

English, Malayalam, Hindi
